

<p><u>Grout Vent Tubes</u></p> <p>Grout Tubes 21/28 mm for grouting and vent during PT Duct injection. Compliance to FIB bulletin report 7 recommendation and FDOT</p>	
<p><u>Grout Port 21/28 mm</u></p> <p>Professional fast and easy connection to be weld to PT Ducts for connection of 21/28 mm vent tubes</p>	
<p><u>Grout Ports NPT</u></p> <p>Professional fast and easy connection to be weld to PT Duct for connection of NPT threaded high pressure grouting pipes</p>	
<p><u>Grout Ports welding end caps</u></p> <p>Grout Port welding end caps for durable complete closing of grout ports after PT Duct grouting. Welding by using special tool of grout port welding equipment.</p>	
<p><u>Grout Port Welding Equipment</u></p> <p>Professional fast and easy welding of grout ports to ducts for grout tube connections. Available 220V and 110V.</p>	
<p><u>Grout Valves rotating</u></p> <p>Grout valves rotating to suit with standard 21/28 mm grout tubes</p>	
<p><u>Grout Valves rotating with sealing</u></p> <p>Grout valves rotating with sealing for pressure tightness to suit with standard 21/28 mm grout tubes</p>	

<p><u>Grout Valves with sliding port</u></p> <p>Grout Valves with sliding port to suit to 21/28 mm grout tube and to be closed with a hammer</p>	
<p><u>Grout tube end caps outside</u></p> <p>End caps to close standard grout tubes 21/28 mm to be screwed outside</p>	
<p><u>Grout tube end caps inside</u></p> <p>End caps to close standard grout tubes 21/28 mm to be screwed inside</p>	
<p><u>Grout tube connection FF (female/female)</u></p> <p>Grout tube connection FF to extend standard grout tubes 21/28 mm</p>	
<p><u>Grout tube connection FM (female/male)</u></p> <p>Grout tube connection FM to extend standard grout tubes 21/28 mm</p>	
<p><u>Twist Lock Connectors</u></p> <p>Twist Lock Connectors to connect grout valves with standard grout hoses. Available in plastic and steel.</p>	
<p><u>Tapping Saddle</u></p> <p>Tapping Saddle to suit with steel PT Ducts for connection with HDPE vent pipes.</p>
