

Individual NOCX Stay Pipe color design with colored external spirals

A choice of more than 200 colors including metallic effect colors are available according to our color chart and can be mixed with any pipe color for individual stay pipe design e.g. in national colors, State colors or colors of province or city.

As an option the double spirals are offered in one or two different colors from the pipe color.

Colored external spirals are of same best NOCX HDPE quality incl. uv -stability, heat and micro crack resistance and online welded to the pipes.
